

## NORTHERN TRIBUNE.

THURSDAY, MAY 7, 1885.

## MARINE.

—The City of Alpena made her second call at this port yesterday.

—S. F. Tolson's tug Dispatch cleared for Goderich, Ont., Sunday.

—Navigation is opened, the City of Alpena being the first boat to arrive, Friday, May 1st, at 2 a. m.

—The steamer Ivanhoe will ply between St. Ignace and Manistique this season. She leaves Detroit this week.

—The Van Raalte left Sunday forenoon for Harbor Springs to enter upon her new route. She never looked better since she struck northern Michigan.

—The tug Messenger made Cockburn Island last week without much difficulty, and returned to port Friday. Saturday she went out and made the first lift of fish for the season.

—The straits are open, the first passage down being made by a steambarge, supposed to be the Nahant, Monday night, passing this port Tuesday morning. The Nahant cleared from Milwaukee Sunday.

—The Flora arrived up from Detroit Friday afternoon. Numerous friends of Capt. W. E. Comer were on the dock to give him a welcome. Being behind time the boat did not call in going down. She had quite a lot of freight for Cheboygan.

—The propeller Toledo, of the Buffalo and Green Bay line of steamers is announced to leave Buffalo to-day. The Onaida has been chartered to run between Grand Haven and Milwaukee until May 1st 1886 and consequently will not be one of this line.

—The tug Geo. W. Cuyler went up into Burt Lake Tuesday. She had no trouble in getting through the river, touching once slightly where the Sturgeon river bar had formed. The Gifford boys made a good channel when they dredged out the bar.

—The City of Mackinac put in her first appearance for the season, at this port, last Monday forenoon. They met with considerable ice in the lower end of Lake Huron, but none after leaving Alpena until they reached Cheboygan. There was considerable drifting ice off this port, but it did not interfere very much with her entering. She did not call in going down.

—The propeller Ste. Marie left Sault Ste. Marie Tuesday morning and reached Cheboygan yesterday morning. Captain Mondor reports Mud Lake full of ice, but says it is badly honeycombed. They met the Messenger at Sallors Encampment, the latter having opened the passage through Mud Lake. The Ste. Marie went to Bay City to go into dry dock to have some repairs made.

—The Atlantic, of Grummond's line, arrived Tuesday morning on her first trip to Cheboygan and the straits. Capt. Jones reports meeting heavy fields of ice on the lake, and that some of the fields were grounded in 15 feet of water. The Atlantic was loaded down with freight when she left Detroit until she was drawing 12 feet of water. She landed a large quantity of freight and a number of passengers at this port.

—The Messenger cleared for Sault Ste. Marie Saturday morning. She had quite a time bucking ice in Mud Lake, making three attempts before she succeeded in breaking a passage through. She reached the "Soo" Tuesday evening, securing the honor of being the first arrival in that port. This is the second season Capt. Brown has secured the salute in honor of bringing to that port the first boat. She returned to Cheboygan last evening.

—Saturday morning the tug Pendell left with Lightkeeper Marshall, of Spectacle Reef light, and his assistants to land them at the light. She had just got to the end of the piers when a joint blew out, letting all the water out of her boiler, and she had to make her way back. They gained the pier and pulled her in by hand, when the Cuyler pumped her boiler full and she made a second start, landing the party and returning that evening.

## MARRIED.

SPENCE—CRUMP—On Tuesday evening, April 28th 1885, by Justice F. M. Train, of Burt Township, Mr. C. A. Spence, of Inverness township to Miss Hettie M. Crump of Burt.

After the ceremony the happy couple and their friends had a dance and a grand good time was had. We are informed that a liberal supply of wedding cake was laid aside for the printers, but the crowd was so great that the supply set aside for this charitable purpose had to be drawn on, and thus the poor printers got left. We tender congratulations all the same.

## NORTHERN TRIBUNE CORRESPONDENCE.

ALLIS.

April 28th 1885.

We heard that dread winter was gone but this morning we arose to at least 12 inches of the beautiful covering the fair faces of Allis and Waverly, which it was hoped ere now would have been made sisters. The failure is probably owing to that old pack of ravenous wolves that drove our worthy ex-Supervisor into the hollow log and undoubtedly would have made another widow only for the Union School petition which lay sleeping in the soles of his boots, which could not be drawn into the log, but we fear our ex-Supervisor is no more since the new County Petition entrusted to his care was either (as report goes) lost, stolen or sold for good dinners, but we think it more probable that as the petition was a fat one that those wolves (that drove the ex-Supervisor of Waverly up a tree) must have scented it from afar:

And thus the County of Sumner  
Has felt o'er the keel,  
And who is rejoicing,  
More, than Mother Fresque Isle.

As to business in this locality, it is just booming, especially with our two merchants, Uncle Sam being unable to carry the mail for both firms, necessitating the running of a private stage. Wonders will never cease.

Very respectfully,  
ONE WHO KNOWS.

BURT LAKE.

May 3, 1885.

Mr Editor as I have not seen any communication in your paper from the north arm of Burt Lake, or Crump settlement, I thought that I would send you a few items.

Sunday is quite a day for sport, fishing and hunting being the pastime.

We came near having a sad accident on the 3d inst. There was a party of three went fishing with guns and spears in a small creek that empties into Bortas Bay, and while rowing through the brush one of the guns was discharged, both barrels at once, and the contents passed between the feet of Fred Cleckner and passed through the bottom of bow of the boat. He took it quite cool and made the remark that he guessed that he would quit this Sunday business and go to church.

Our school commenced last Monday and Miss McCallum from Hope, Barry county, is going to teach the young idea how to shoot.

MORE ANON.

INDIAN RIVER.

May 6th, 1885.

A mistake was made in the first item of last week it was ten instead of two inches of snow.

The ice in Burt lake moved the 28th to the east shore, and to the west the 29th, and finally went out the 1st of May.

The tug Geo. W. Cuyler from Cheboygan came up here yesterday.

The Ida May has been repainted and is now ready for all kinds of work.

Indian River is getting to be quite a town for school teachers, four school-marks left here Sunday last to commence their respective schools Monday morning.

The county business is getting monotonous and we wish they would either come home or stop writing for money. It is the same old story—still at work.

OBSERVER.

## Dissolution Notice.

Notice is hereby given that the partnership heretofore existing between the undersigned under the firm name of Spooner & St. Germain has been dissolved by mutual consent, Mr. St. Germain retiring. Oliver Spooner will continue the business, assumes all liabilities, and is alone authorized to collect all accounts due the late firm.
